

# Energy data

## Our services for increased transparency

### “My ewz” customer portal

In “My ewz”, you have access to data on your costs, consumption and production at all times.

#### The benefits to you

- You maintain an overview of your energy consumption and costs
- Your ewz bills at a glance
- Evaluation of individual metering points/properties
- Evaluation by month, quarter or year (depending on billing cycle) and up to two years retrospectively
- All data is available to download at any time

#### Good to know

- Your data is displayed in aggregated form for the calendar year and the property as standard
- Download data by billing interval and by metering point

#### Application

- Regular monitoring of your energy consumption and costs

### ewz.lastprofil

With ewz.lastprofil, you have access to current metering data on your energy consumption.

#### The benefits to you

- Every day from 7:00 am: measured values from the previous day at 15-minute intervals
- Access via the web portal at any time and from anywhere
- Data can be retrieved as lists, tables or directly as graphs
- Available free of charge

#### Good to know

- Requires a remote-read meter with load profile measurement
- Shows power (kW), energy consumption (kWh) and reactive energy (kVarh)
- Free choice of time periods for the evaluation of diagrams and tables
- Save or download evaluations

#### Application

- Systematic accounting and budgeting of your energy consumption
- Optimising power consumption

### ewz.energie datentransfer

ewz.energie datentransfer transfers your energy data to your external monitoring partner.

#### The benefits to you

- Your data is sent directly to your monitoring partner
- Each day's data is delivered by 10:00 am the following day
- Plausibility-checked monthly data is delivered no later than the 10th working day of the following month
- Available free of charge

#### Good to know

- Requires a remote-read meter with load profile measurement
- ewz sends the energy data, recorded at 15-minute intervals, from the previous day (not plausibility-checked)
- Sent via file transfer protocol (FTP) or email
- Data can be delivered in ebIX or csv formats

#### Application

- Outsourcing energy-data monitoring to your external partner

The logo for ewz, consisting of the lowercase letters 'ewz' in a bold, dark blue sans-serif font. Below the letters is a horizontal bar with a green segment on the left and a dark blue segment on the right.

**ewz.energieDatenreport.standard**  
**ewz.energieDatenreport.standard**  
 includes standardised evaluations of  
 your billing, power or load profile data.

#### The benefits to you

- You receive an evaluation of your billing, power or load profile data
- Evaluation by month, quarter or year (depending on billing cycle)
- Evaluation across multiple locations or by metering point
- Available free of charge

#### Application

- Simple (one-off) breakdown of power consumption into peak tariff, off-peak tariff and total amount
- Evaluating maximum power per month

operations@ewz.ch  
 netzkundenanliegen@ewz.ch

**ewz.energieDatenreport.individual**  
**With ewz.energieDatenreport.individual**, you receive energy data reports tailored to your needs.

#### The benefits to you

- Optimum overview of your energy situation
- Individual evaluations of your billing, power and load profile data
- Evaluation by day, month, quarter or year (depending on billing cycle)
- Evaluation across multiple locations or by metering point

#### Application

- Cross-property energy data reports
- Breakdown of PV power production, self-consumption and feed-in

#### Price

We would be happy to prepare a personalised quote for you.
