Connection

With a connection to the energy network, we supply you with 75 or 100 per cent renewable energy for heating and hot water production.

Preparing for the connection

We lay a supply line into your properties – at a one-off cost and with no further obligation. The energy supply doesn't begin until a time of your choosing, such as when you replace your heating system.

Example calculation: connection to heat supply

Assumptions

Connected load	300 kW
Energy consumption per year	600,000 kWh
Number of homes	70

Effective connection fee CHF 66,278

Base price CHF 45,000 per year

Price for heating CHF 60,000 per year

Energy price, total
(without taking the one-off connection fee into account) **CHF 0.175 per kWh**

Costs per home CHF 1,269 per year
CHF 106 per month

Proportion of renewable energy 75%

The one-off connection fee applies when a contract is signed up to a year before construction of the main supply lines begins.

If the contract is signed less than a year before construction begins, an additional flat fee of CHF 8,000 is charged.

If the contract is signed after construction begins, the connection fee is determined based on the costs incurred, but we will charge at least the connection fee and the additional flat fee of CHF 8,000.

A connected load of at least 15 kW is required.
