

# Fehraltorf energy network

## Pricing

### Connection

With a connection to the energy network, we supply you with 90 per cent renewable energy for heating and hot water production.

### Preparing for the connection

We lay a supply line into your properties, at a one-off cost and with no further obligation. We do not begin supplying energy until the time of your choosing. That could be when you replace your heating system, for instance.

### Subsidies

Please remember it is your responsibility to apply for funding for your connection to the district heating network. Funding always goes to the owner(s) of the property.

The one-off connection fee applies when a contract is signed up to a year before construction of the main supply lines begins.

If the contract is signed less than a year before construction begins, an additional flat fee of CHF 8,000 is charged.

If the contract is signed after construction begins, the connection price is determined based on the costs incurred.

However, at least the connection price and the additional flat fee of CHF 8,000 will be charged.

A connected load of at least 15 kW is required.
