Seefeld lake heat network
Pricings

Connection
With a connection to the heating network, we supply you with 80 or 100 per cent renewable energy for heating and hot water production.

Preparing for the connection
We lay a supply line into your properties – at a one-off cost and with no further obligation. The energy supply doesn't begin until a time of your choosing, such as when you replace your heating system.

The one-off connection fee applies when a contract is signed up to a year before construction of the main supply lines begins.

If the contract is signed less than a year before construction begins, an additional flat fee of CHF 8,000 is charged.
If the contract is signed after construction begins, the connection fee is determined based on the costs incurred, but we will charge at least the connection fee and the additional flat fee of CHF 8,000.
